

Huajian Aluminium Profile

Aluminium profiles is produced by extrusion process involves a preheated billet being squeezed through an opening in a steel die forming the cross-section of the extrusion or profile. After extrusion process, aluminium profiles surface can be treated with different paints: Mill finish, Anodized finish, powder coating finish and PVDF coating, wood transfer process to suit various clients and design requirement. Extruded aluminium profiles has now been widely used in architectural, Auto, Industry, furniture, etc.

Huajian Aluminium profiles now become Morn's new products category, Morn offer comprehensive Aluminium profile products with competitive price.

Products include:

Aluminium Alloy profile

Thermal break aluminium profile

Curtain wall aluminium profile

Windows&doors aluminium profile

Surface treatment options:

Mill Finish,

Anodized finish ,

Powder coating-Akzo Nobel,

PVDF coating-Akzo Nobel,

Wood transfer -Italian Memphis

About Morn Building Materials:

Morn Building Materials Co.,Ltd is trading company offering the right facade materials for a wide range of applications for architectural,design and system requirements.Cooperating with China premium glass fabricators,Morn is able to supply whatever glass products applied in facade,Spandrel ,roof ,handrail,partition,balustrade,canopy,greenhouse,sun room ,interior exterior application.

Other facade materials:Aluminium alloy profiles,aluminium plates,aluminium windows&doors,Assa Abloy hardware,spider fitting,railing systems,shower rooms,polyurethane panels,machines&tools,steel structure, are also available since 2019.

From aesthetics, to strict environmental and energy specifications, to critical budget and delivery requirements, our input can make a difference.
